PROFILE

Frontend developer with 8+ years of experience delivering and maintaining client websites and e-commerce storefronts. Strong in responsive UI implementation, Figma-to-code delivery, BigCommerce customization, React/JavaScript, and REST API integration. Expanding into full-stack development through a deployed .NET and React project.

PROFESSIONAL EXPERIENCE

Front-End Developer | KMC — Oct 2021 - Present

- Build responsive BigCommerce storefronts from Figma and PSD designs for client launches, translating design requirements into production pages.
- Develop custom Page Builder widgets with JavaScript and React, integrating REST APIs for dynamic storefront features.
- Maintain live stores through SLA-bound support work, including bug fixes, content updates, and storefront enhancements.
- Troubleshoot order-flow issues for Randem Retail's order management platform, working with an AWS-backed stack.

Front-End Developer | OOM — Mar 2019 - Oct 2021

- Turned wireframes and PSDs into responsive websites across client projects.
- Maintained and improved WordPress sites, including SEO-focused content changes and ongoing enhancement requests.

Front-End Developer / Web Designer | Goetu Infotech Solutions Inc. — Sep 2017 - Mar 2019

- Designed and built client websites end to end, including visual assets, site setup, redesigns, and maintenance.
- Created reusable site templates to speed up delivery of new client websites.

SELECTED PROJECTS

BoardSync | Collaborative Kanban board (in progress)

- Built a deployed full-stack portfolio project with a React/Next.js interface and .NET backend; the public preview currently opens at sign-in.
- Designing the board around real-time collaboration with PostgreSQL, SignalR, and Redis; these capabilities remain in development.
  boardsync-web.netlify.app

Personal portfolio | Next.js

- Built and deployed a responsive portfolio with project pages, a FAQ chat, and contact flows.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, Vue, HTML, CSS/SCSS, Tailwind CSS, responsive design
Platforms & tools: BigCommerce, WordPress, Figma, REST APIs, Git, AWS-backed support workflows
Full-stack development: .NET/C#, PostgreSQL; exploring SignalR and Redis through BoardSync

EDUCATION

Bachelor of Science in Computer Science — DCLC | 2011 - 2015
